

SOUNDLAB

Engineering & Production in Practice

Chem19 Recording Studio, based just outside Glasgow, is proud to announce the 2020 round of its engineering and production course SoundLAB. Starting in February 2020, SoundLAB offers 12 young students the opportunity to learn the fundamentals of audio engineering & production, taught by professional engineers in a working studio setting.

**Applicants must be aged between 18 and 30
and must be resident in Scotland.**

For more information on the course and how to apply please visit

www.chem19.co.uk

Applications close Friday 3rd January 2020
